

Bridging the gap between today and tomorrow.

The new e-STUDIO256SE/306SE/356SE/456SE mid-range B&W solutions from Toshiba are ready to integrate and meet your current and future needs. Featuring a new versatile e-BRIDGE controller and unique Human-Centric design, they simplify operation in seven key areas to make network connectivity and system management virtually effortless. They also incorporate advanced security measures like Toshiba's proprietary data-encrypting Security HDD and are designed to simplify customization. With speeds of up to 45ppm and a wide range of advanced features, the e-STUDIO256SE/306SE/356SE/456SE can help bridge the gap between today and tomorrow.

e-STUDIO256SE/306SE/356SE/456SE

TOSHIBA
Leading Innovation >>>

**One Machine.
Many Possibilities.**

RSP Version 1.0

READY FOR INTEGRATION

- The e-STUDIO356SE/306SE/456SE is designed to easily integrate with your current system:
- ▶ e-BRIDGE open platform for unsurpassed freedom in connectivity with Toshiba and third-party applications like account, management and other systems to help raise your business efficiency
 - ▶ Plug-in e-BRIDGE Job Build eX/e-BRIDGE Replicator eX for a smoother workflow
 - ▶ Easy access to Google Docs, SharePoint and other web application platforms to extend your reach significantly
 - ▶ A colour scanning function improves compatibility with scan solutions
 - ▶ Optional e-BRIDGE Re-Rite can easily convert colour documents into searchable PDF, TXT, EXCEL, WORD, PPT and other files

COMPREHENSIVE MANAGEMENT

- Toshiba refines every facet of MFP design to simplify system management:
- ▶ Toner recycling system and long life unit/consumable design for lower Total Cost of Ownership (TCO), ensure efficient output delivery
 - ▶ Job Quota function helps to minimize waste by restricting output volume
 - ▶ System administrators enjoy easy usage in performing tasks like system updating/adding functions/cloning
 - ▶ e-BRIDGE Fleet Management System (ERMS) centralizes management of multiple devices, shows output volume and minimizes downtime
 - ▶ Toshiba's MDS helps you to streamline entire document and data capturing, document archiving, document workflow, data security and environmental management

SOLID SECURITY MADE EASY

- e-STUDIO models incorporate diverse security measures to fully meet data security needs in today's challenging world:
- ▶ User authentication function
 - ▶ Standard security pattern-printing functions
 - ▶ Role-Based Access Control without requiring an external server
 - ▶ HDD Data Overwrite for extra security (optional)
 - ▶ Toshiba's Self Encrypting Drives (SED) protects stored data and reduce the risk of information leaks from the MFP
 - ▶ SED technology helps to determine a range of security settings when a drive is removed from its housing or connected to an unauthorized host system

ACCELERATED PRODUCTIVITY

- The e-STUDIO356SE/306SE/456SE accelerates productivity with a choice of output speeds as well as high-volume output capabilities that greatly enhance work efficiency when dealing with large jobs:
- ▶ A maximum speed of 45ppm
 - ▶ Independent LCF allows paper replenishment while the machine is running
 - ▶ Dual-sided output is the same speed as single-sided output
 - ▶ Gigabit Ethernet allows speedy transfer of extremely heavy scanned and printed files
 - ▶ Tandem printing allocates parts of large print jobs to another e-STUDIO to accelerate output
 - ▶ Optional e-BRIDGE Job Point eX divides large print jobs among up to 10 e-STUDIOS

OVERALL ECO-EFFICIENCY

- Toshiba's solid commitment to ecological efficiency is demonstrated through:
- ▶ Conformance with various worldwide environmental standards like Energy Star Program version 1.1
 - ▶ Low power usage (1W power consumption in Super Sleep Mode)
 - ▶ Toner recycling mechanism for zero toner waste environment
 - ▶ Eliminator/reduction of materials harmful to the environment
 - ▶ Use of recycled plastics
 - ▶ Biomass plastic for power switch cover

OPERATIONAL SIMPLICITY

- Toshiba's comprehensive attention to detail results in a unique and universal design that makes MFP operation as easy and intuitive as possible:
- ▶ Tilt-adjustable 9" WVGA colour LCD touch panel
 - ▶ Paper cassette handles with easy grip from above and below
 - ▶ Customizable menu screen
 - ▶ Optional Accessible Arm for easy RADF closing by users in wheelchairs
 - ▶ Single-touch template in the printer driver instantly recalls and executes a range of print settings

HIGH-QUALITY PERFORMANCE

- Our unique image processing technology is your assurance of sharp text and clean gradations in wide-ranging originals – even for B&W reproductions made from colour originals:
- ▶ Highly-dependable engine to deliver unmatched reliability
 - ▶ Multiple finishing options including a new slim finisher and inner finisher
 - ▶ New finishing/editing functions for efficient print finishing such as 2-in-1 magazine sort
 - ▶ Advanced image-processing technology ensures stable image output of excellent quality
 - ▶ Colour scanning saves high-quality colour image files
